Return and Collection of Electrical and Electronic Equipment according to EU-Directive 2012/19 on Waste Electrical and Electronic Equipment (WEEE)

Dear Customer,

The EU WEEE Directive 2012/19 aims to minimize the impact of the disposal of electrical and electronic equipment when it reaches end-of-life. The Directive requires producers to provide arrangements for collection, treatment, recycling and recovery of the products they sell in Europe.

All EUCHNER products covered by the EU WEEE Directive are appropriately labelled (see symbol below), indicating that such must be collected separately from other waste. EUCHNER's products are not intended for use in the private sector, and such is unlikely, due to the special requirements regarding their usage. Therefore, they may not be collected by the public waste disposal authorities. Legal requirements vary by countries. Please refer to your invoice and accompanying business documents for detailed information.

EUCHNER GmbH + Co. KG is registered for the collection of electrical and electronic equipment with the German Elektro-Altgeräte-Register (registration no. DE 55049367). You can return your products to:

EUCHNER GmbH + Co. KG
QSR / WEEE
Ernst-Mey-Str. 3
70771 Leinfelden-Echterdingen

In Luxembourg, we are member of Ecotrel and registered with the Ministry of Environment. If you want to return EUCHNER products for appropriate treatment and recycling, please contact us at info@euchner.nl. EUCHNER will arrange the procedure and pay for the transport to an appropriate treatment facility.

In Ireland, we are registered with Producer Register Ltd Blackbox (registration no. IE 3589W). Please contact us at sales@euchner.co.uk for further information.

Best regards

EUCHNER GmbH + Co. KG
